

2018-2019
ACADEMIC YEAR

NORTHLAND
SCHOLARS ACADEMY

ADVANCED OPPORTUNITIES

Forward-thinking students across the world understand that future success is built on the actions they take today. They are looking for a true pathway to their educational and career dreams – one with a global perspective coupled with a rich student experience.

Northland Scholars Academy is an innovative and dynamic college-preparatory school designed to prepare every student for success in advanced studies, in future careers, and in life. Strategically set on 500 pristine acres in Northeast Wisconsin, Northland Scholars Academy challenges students with a rigorous high school and college curriculum, enriched through fun and exciting campus amenities, robust community involvement, and numerous clubs, sports and student organizations.

TRANSFER TO UNIVERSITY!

POST-GRADUATE - (OPT.) EARN COLLEGE CREDIT

GRADE 12 -

GRADE 11 -

GRADE 10 -

GRADE 9 -

DUAL-CREDIT: earn high school & college credit, up to an Associate Degree or Certification, concurrently with high school diploma

ENGLISH LANGUAGE INSTITUTE

For international students, command of the English language is necessary for success in American high school and university studies. NSA provides intensive and remedial ESL, with the objective of obtaining the proficiency needed for advanced studies.

LEADERSHIP INSTITUTE

Understanding leadership principles and practices allows young people to achieve objectives and become tomorrow's leaders. NSA students examine problem solving, success strategies, and the skills necessary to motivate others toward superior levels of performance.

SUSTAINABILITY STUDIES

The 500 acre Northland campus is an ideal setting to observe and study the natural world. As a global school, sustainability issues worldwide take on added importance. Students at NSA explore food and water initiatives and have the opportunity to earn a sustainability certification.

GLOBAL SCHOOL

Northland Scholars Academy offers an environment of shared success where talented and ambitious students from around the world live, study, and play together. The friendships developed at Northland Scholars Academy will last a lifetime.

Vita Discere Ad Germinare - To Live... To Learn... To Grow

NSA'S EARLY COLLEGE PROGRAM

You can earn an Associate Degree and Vocational Certifications while still in high school.

Through a special partnership with Bay College, all Northland Scholars Academy students, in grades 9 to 12 and post-graduate, have the opportunity to enroll in hundreds of dual-credit college courses and certificate programs with the ability to earn a degree, or vocational certification, and their high school diploma concurrently.

NSA graduates can also benefit from guaranteed transfer agreements with 9 colleges and universities.

Associate in Arts Degree (AA)

The Associate in Arts degree is primarily designed for students who wish to transfer to a four-year college or university. Students should work closely with an academic advisor to select courses needed for their intended major. In addition to preparation for transfer, this program is designed to provide students with a strong general education background. Associate in Arts (AA) degrees include:

- Art & Design
- Business Administration
- Criminal Justice
- Network Administration

Associate in Science Degree (AS)

The Associate in Science degree is primarily designed for students who wish to transfer to a four-year college or university. In addition to preparation for transfer, this program provides students with a strong general education background. Students should work closely with an academic advisor to select courses needed for their intended major. Associate in Science (AS) degrees include:

- Pre-Engineering
- Pre-Molecular Biotechnology
- Pre-Natural Resources
- Pre-Professional Health

Associate in Applied Science (AAS)

The Associate in Applied Science Degree combines general education with coursework designed to prepare students for immediate entry into the workforce upon graduation. Bay College's approved General Education Model ensures that the curriculum of all occupational programs has a balance of technical, vocational, and liberal arts study courses. Associate in Applied Science (AAS) degrees include:

- Accounting
- Automotive Technology
- Business
- Computer Information Systems: Programming & User Support
- Computer Information Systems: Software/Network Support
- Computer Network Systems & Security
- Corrections
- Early Childhood Care & Education
- Environmental Management
- General Studies
- Geographic Information Systems (GIS)
- Human Services
- Law Enforcement
- Marketing
- Mechatronics & Robotics Systems
- Nursing
- Office Systems/Administrative Assistant
- Office Systems/Medical Office Specialist
- Paramedic
- Water Resource Management
- Water Resource Management I + I

Certificates

Bay College offers certificates in a number of subject areas. Most certificate programs can be completed in one year of full-time enrollment. A certificate program is designed to develop a particular set of employment skills, and it can build toward a degree. Certificates include:

- Accounting
- Computer Applications
- Corrections Officer
- Early Childhood Care & Education
- Emergency Medical Technician-Basic (EMT-Basic)
- Entrepreneurial Small Business
- Health Careers
- Mechatronics
- Office Assistant
- Practical Nurse
- Private Security
- Sustainability
- Welding

500 ACRES TO EXPLORE, PLAY, LEARN, AND GROW!

Northland Scholars Academy, near Green Bay, Wisconsin, is located in the northern Midwest of the United States of America: amidst the rolling hills and dense forests surrounding the Great Lakes. Here there are 4 full seasons - each offering their own unique culture, traditions, and activities. The stunning grounds of the Northland campus boast private lakes, sprawling lawns, wooded trails, bright stars, fresh air, and breathtaking sunsets. The Northland Campus also offers modern facilities and recently refurbished and updated accommodations. This unique, tranquil site – rich with natural beauty and comfortably equipped with state of the art buildings - is the ideal setting for students to live, learn and grow.
